

See what you're doing as it is a plain as the nose on your face,

See what you're going as you have to answer to the whole human race;

Understand the difference between what you want and what you need,

For everything written is just something to read and to lead.

See what you're doing when driving down the road in your car,

See if you can pick the difference between the sun and a star;

Know what you know and say no to the things that are wrong,

Write a poem or verse and go on to be singing a new song.

See what you're doing as it is the only way out for where to be,

See where you've been because it helps the memory to agree;

Find kinds of life like things that just come and go along the way,

Look to the future from the past to the present day to day.

See what you're doing and don't try and squeeze people around,

See why the good times are a reason to keep standing you're ground;

Remember the bad times because they too bring wisdom to head,

For when everything is perfect there's reason not to chance being dead.

See what you're doing as mistakes are quiet easy to make,

See who you're knowing and don't worry at the earth's shake;

Live life loving God and you will have plenty of good in everything,

Fix what went wrong and solve the problem of a bad debt for anything.

See what you're doing to establish the right way to go,

See when it's needed for the rhyme in its heavenly flow;

See what you're doing because you really have to maintain to stay alive,

See what is ahead as your car goes along on the drive.

Signed,
