

Parsifal Creates Himself

INTRODUCTION

Passion For Fashion

Self instigated thought continues to evolve and revolve. In the central fashion of the passion of paradise, Parsifal Creates Himself to be a journeying soul on a venture to discover and an adventure to understand knowledge. The confusion is taken out of the picture by the black and white writing, righting his mind to understand truth and logic in positive thought criteria. The creative picture here is one of discovery and digestion of thought as we now get underway in another book of creative experience in the context of Parisfal and how to search and look for wisdom in the knowledge of being, or coming from a fool's perspective to create a right minded view on things through writing. You just can't create wisdom out of nothing, there are governing truths in the world that just have to be sorted out and written down for other people to read and discuss. There are indeed rules and rights and wrongs in life, writing just paints the black and white perspective on how we could or should look at any given situation or set of circumstances. This book hopefully will aim to do that, in that as we go through and write the poems in discussing dialogue, there will be some creativity and understanding as to what the truth in wisdom really is. There is also plenty of scope for individual and selective creativity, which comes from that in the free flowing writers licence to express themselves in ordered structure. There will also be a free and easy attitude on mind in delving out into the deep of the unknown. Anyway it goes, it will turn out how God has planned it and prepared it in His mind. I just have to try and tap into the thoughts of God and His heavenly perspective and mind of peace for what is the desired outcome of brilliant paradise all around, in the end of written verses of poetry. Do enjoy yet another book of poetry, it is far too interesting for me to keep writing it now for me to get sick of it. Indeed the intrigue and fascination of what God has instore and what will come out is the very next thing to happen in the work and this hopefully will hold your interest and give you happiness as well to. Stay tuned for another ride of your life. Darel.

CHAPTER 1 Creation

1 In The Beginning

In the beginning,

God created the universe;

The heavens and the earth,

And He said that it was good.

In the beginning,

God said let there be man;

In the course of His perfect plan,

And woman to keep him from loneliness.

In the beginning,

Satan the serpent tempted Eve;

The fruit of the tree of good and evil,

She ate some and gave some to Adam.

In the beginning,

Sin entered into the world;

Now we have a fallen state.

Adam and Eve had to leave their garden paradise.

In the beginning,

Noah and the flood,

Two of every animal in the ark;

God will save us with His love.

In the beginning,

Noah sent out a dove,

Returning with a leaf in its beak.

God saved us with His love.

Signed,

Life goes on.

2 Love Is Great

Love is great,

Grace must relate;

All you create,

The mercy debate.

Love is great,

God is the greatest;

Jesus humble servant,

People trying to say it.

Love is great,

Time on your hands and side;

Life is an easy glide,

Taking your partner for a ride.

Love is great,

The beauty of no more hate;

Loving, living, just being one,

All the fun if only you had won.

Love is great,

Good food forever more;

God has to be in the mood,

Honour, freedom and have to move.

Love is great,

Heads, tails and books;

Faces, faith and looks,

Two people just being.

Signed,

Togetherness.

3 Apple Trees

Apple trees,

Cherry blossoms;

Lemon drinks,

Orange squeezed juice.

Apple trees,

Eucalyptus gums;

Grape vines for wine;

Sin is in the pot.

Apple trees,

The good things you have got;

Wash your hair in apple henna,

Pies, struedle and turnovers.

Apple trees,

Both red and green;

Golden and delicious,

Stewing and baking desert.

Apple trees,

Your looking at me,

Man and woman,

The evil snake.

Apple trees,

Bad and good;

Happy forever,

Heaven and hell.

Signed,

Money tin.

4 Only One Sin

Only one sin,

Spoiled it for everyone;

Adam and Eve,

Ate that piece of fruit.

Only one sin,

Jesus died for them all,

Down through history,

Each to their own.

Only one sin,

Poisoned for the rest of us,

That wicked viper,

Tempting and testing us.

Only one sin,

All the world to win;

The earth still to spin,

When evil entered in.

Only one sin,

Good thing your thick skinned;

Take it on the chin,

Put it in the bin.

Only one sin,

Time two or three,

Loving only me,

God is up above.

Only one sin,

How could you be so naive?

The world is full of sin.

Needing a dieing saviour.

Signed,

For five money.

5 Everything Exploded

Everything exploded,

Youv'e heard of the big bang;

Then everything just was,

Something out of nothing.

Everything exploded,

God created the world,

The heavens and the earth,

The beauty of relationship.

Everything exploded,

Mining the minerals;

Dig deep in the pit,

The city where you sit.

Everything exploded,

Out of the desert,

Wilderness or anything,

Going walk about where.

Everything exploded,

Just as he said it would;

The man in the street,

Somewhere to put his feet.

Everything exploded,

Signs of the times,

The way that it should be,

Just how it really is.

Signed,

The big rock.

6 Life In The Garden

Life in the garden,

A paradise of flowers;

Plenty of fruit to eat,

A beautiful unspoilt world.

Life in the garden,

Things could not get much better;

Then sin entered into the world,

Adam and Eve ate the forbidden fruit.

Life in the garden,

That deceitful serpent,

Tempted them to eat,

Spoiling everything that was good.

Life in the garden,

The tree of knowledge;

And of Good and Evil,

Tastes sweet and good but was bad and rotten.

Life in the garden,

Sent from within the grounds;

Absent from their paradise now,

They were punished for their sinfulness.

Life in the garden,

Left all the good behind,

An angel with a flaming sword,

To guard and stop them going back.

Signed,

A whole new world.

7 Walking Aimlessly

Walking aimlessly,

Without God's guidance,

Not knowing His leadership,

In a dreamtime land.

Walking aimlessly,

Food for thought;

Hunters and gatherers,

Aboriginal walkabout.

Walking aimlessly,

We have no clear direction;

Looking for the light of life,

To come into our lives.

Walking aimlessly,

No where to go;

Where to turn now,

I just don't know.

Walking aimlessly,

No purpose or plan,

Making unsure decisions,

God's need is at hand.

Walking aimlessly,

Please point out the right way;

I could get lost going all day,

Dear God find me, lead me I pray.

Signed,

Heading home.

8 A Long Time Ago

A long time ago,

God did make man;

For His good pleasures,

Purpose and plan.

A long time ago,

God did walk the earth;

Walking for the worth,

Jesus came along.

A long time ago,

Skies were the heavens,

Ancient pits of hell,

A place where all is well.

A long time ago,

Jesus taught us down here;

Miracles and parables,

Living water and eternal life.

A long time ago,

Money was not important;

Now its too important,

No place where to go.

A long time ago,

Life was but a sweet walk home,

To family, friends and things I've known,

Now I have stopped running, I have a place of my own.

A long time ago,

Music was good to my ears,

To hear the sounds of silence,

Peaceful joy and tears.

Signed,

Loving God.

9 The Future Comes

The future comes,

Leaving the past behind;

When I had peace of mind,

Now looking forward.

The future comes,

Every moment ticks bye;

Ears on earth, eyes to the sky,

You just have to wait for tomorrow.

The future comes,

All the good things I wanted;

Dropped in my lap by God,

Worth all the waylaying.

The future comes,

Time is beyond us;

Now in the present,

Good things all around.

The future comes,

Yes, sooner or later,

One way or another,

You'll get what you bargained for.

The future comes,

Greatfully being recieved;

Delicious and joyously,

A great dinner appeared.

Tells you where you belong.

Present now,

Rollcall has been done,

No truanting today,

Don't spoil all of our fun.

FINAL WORD

Take A Breather

Time has a way of healing all wounds, if we just take a breather and use some relaxation to help us live and think. Working at your own pace in order to get things done, does not necessarily come at a cost, but the price of not enjoying life is far greater than all the selfish ambition to succeed. Sure we have to work to make a living but at the right time and at the right pace. It is still fair to say that there are no free lunches, but God is not always hungry all the time anyway. Things just have to settle sometimes in order to get done. I have taken my time with this book as a sort of way of mending the mind from over excursion, just pushing or trying too hard sometimes in order to succeed. This is the reason that I write anyway, not for my own enjoyment only but also for the satisfaction of my readers. Slowing down at the end of things, especially writing a book and taking a breather to suck in and rejuvenate some fresh ideas on life by thinking, which gives me more of the time to see the clearer picture and a more total fulfillment in my writing. It is not always self enticing to want to be successful all the time, but just see the joy in others who love to read your work. I don't know what holds me down or keeps me going all the time, except that I do it simply just because I can. Aiming to be perfect is such a futile, yet necessary pursuit, kind of a self defeating exercise sometimes, but also a means to an end in the dividing privilege of sharing knowledge and joy in writing. No matter what the cause, you just have to keep going or stop and it is such a sad moment to end it all in one go and henceforth the need to continue writing until I am simply incapable of doing it anymore. I hope that you have enjoyed this book, Parsifal Creates Himself who might have seemed to be on his ego tripping endurance of self frustrating and personal endeavours to succeed, but also as the rewarding endeavour to continue in the writing of poetry. Thanks Again For Reading. Darel.
