

Well 2000 years down the track
Has brought the truth and life right back;
A billion miles of people course,
Has found the reason and resource.

Through troubled hearts and brilliant minds,
The answers here through all the kinds;
Of what has been and what has come,
To make the future it's brightest for some.

Of miracles and miseries to search and see what may,
That through the dark eternal times have turned into the day;
From love of God and gold so cold,
He's revealed the thousand years and each how old.

That we have now ploughed our mighty course,
For the brighter future from our remaining resource;
And when the sun will rise and set each day,
We'll remember the souls that paved the way.

That when we to when are dead and gone,
Our hearts will beat from what was good and shone;
So when we all will meet in heaven that day,
Together or alone depending on the weather and way.

The ones that made it to the end,
And found a life through wisdom or friend;
That they may now share and reveal this truth,
The God of ages and all living proof.

Signed,

A thousand which way
