

Have faith in life and a cup of tea to warm you up,

That in death when it passes everything will be alright;

Have faith when things seem to want to get you down,

Look up to the bright blue sky when it's grey all night.

.

Someone goes out of their way to put something in the bin,

People have faith that when they're wrong God will forgive their sin,

So have faith in life and time and money will all come in,

That when you love God you will do the right thing to win.

.

I had a good brain and someone had a better brain than me,

I put my faith in life and I have a good mind being free;

I know things cost money but God leaves that all up to me,

For when I have faith in life the hope of light must be.

.

Have faith in life and expect to get the best out of it,

For when you believe in yourself you really try hard to be fit;

When you put your trust in seeing everything as the truth,

Remember to have faith in life for it's the little things as proof.

.

Have faith in life and don't be defeated by the death,

For when everything is won there's always one more breath;

Have faith in life and know God will get to the bottom,

Of everything that's wrong and sinning and none of us can stop him.

.

Have faith in life and start to climb the ladder to the top,

Where all the money in the bank goes in and out the shop;

Have faith in life and fly away all around the world,

Have faith in life and a house and family will be worth.

.

**Signed,**

**Wanted real words.**
