

Always ask first before you do something you shouldn't,
Don't get into trouble unnecessarily for nothing at all;
Count your blessings one by one and be grateful,
Thank God for everything and you will be truly blessed.

Always ask first to make your it is all right,
Be careful in doing things that are wrong;
Count it a blessing when you are in times of need,
God will hear your plea and call and answer and come near.

Always ask first before you can have anything,
Don't take things for granted but respect expectation;
Love while you can because life is quite short,
Pray and behave and all your answers will be brought.

Always ask first before thinking of yourself,
Stay out of trouble and always keep safe;
Work for what you can and try and keep the path clear,
But remember to ask first because problems are near.

Always ask first before eating a meal,
God will hear you and see that your food is good;
Pray from your heart to walk closer to God,
And ask him to help you and strengthen your heart.

Always ask first before jumping into the deep end,
Make sure your safe and that you won't hurt yourself;
Always ask first when in times of trial and strife,
God will reward you and help keep safe your life.

Signed,

Thank you God.
