

Please and thank you is this what to say,
Care for one another something to remember;
Always say please and always say thank you,
This is what you say when asking or receiving.

Please can I have this and thank you for giving me that,
Saying thank you for everything is good in God's eyes;
It is still nice to ask politely and say thank you once or twice,
So gratefully acknowledge that thankfully you have life.

Life is a gift from mum and dad,
God gave us the earth to live all upon;
Please and thank you are a special way to show love,
That heaven will reward you from God on high above.

Please will you bless this food to my heart,
Thank you for giving me this meal to live more;
I love all the goodness that you have in store for me,
As I ask and I plea for grace to receive.

Thank you for loving me and giving your all,
Please God don't hurt me as I am only small;
You are so strong and have power with you might,
To help and protect me and keep me safe all the night.

Please will you let me live, I beg for my life,
Thank you for caring for me and showing your love;
God bless all the children who have to grow up,
Thankyou God for listening and please that's enough.

Signed,

I know I love you.
