

Need to care about what goes on,
Knowing where the sun has shone;
Food and water our greatest prayer;
People who live need more than air.

Need to care about people dying,
Starving to death and always crying;
Warm clothes and a meal to keep them going,
Somewhere to sleep and to watch them growing.

Needs to care about things in the news,
Poverty and riches and paying our dues;
Wanting love and showing some,
Learning about life and knowing some.

Need to care about eternity,
Spiritual blessings and infinity;
Jesus Christ who dies on the cross,
Winning all souls without suffering loss.

Need to care about God in action,
Hearts are warmed and quiet attraction;
Seeing way in which he works,
Creation and authority for the world.

Need to care about wanting more,
What I require I must endure;
Finding a peace and increasing in mind,
So from my heart I'll show I'm kind.

Signed,

Fulfilment Winning
