

There is so many thought that come into the head,

Of why am I living and what happens when I'm dead;

To worry about the time is always a bit negative,

And money for a castle is safe but impregnative.

.

There is a lot of negative words that we think all day,

Like depression and anxiety and stress in their way;

Or the A's of this world in the air of the area.

Abortion and adoption or abuse, abrupt and abrasion.

.

A cost or accusation, adverse or adhere is advice,

The negative decision causes pain twice or thrice;

And the consequence is trouble, problems or strife,

So the answer is simple that you must question life.

.

Gambling is a negative and so is lucky or not,

Smoking causes cancer and is negative to what;

Drinking alcohol is a negative to drown all your sorrows;

Thinking you'll be happy appears clever till tomorrow.

.

Negatives are left and wrong, positives right and right,

Like black and white are opposites after I write;

So what will now happen and what will just be,

Is the plan of the future not negative faith like me.

.

What about the hurts and disease of the mind,

Always negative and not humble or kind;

Even property and buildings have a reason or purpose,

And time and money negative for the whole life of a purpose?

.

Signed,

Understanding Discernment.
