

Just, justice and injustice, they must get there way,

As criminals commit sin and problems arise everyday;

The work to be done is to solve a passionate cause,

Of bringing to attention the injustice in each clause.

,

The problem with the world is that things go wrong,

And can't be answered or proved for sometime long;

In deceit and ill virtue with injustice instead of truth;

To pick the crimes of injustice and deliver the proof.

.

There's is stealing and graffiti or murder and rape,

Found in unconvicted criminals who guiltily escape;

Who police can't prosecute and go living on so great,

Sometimes talking and reasoning, given over to fate.

.

They end up in hell or jail, where there is punishment,

When there is heaven for the victims not banishment;

The innocent of the earth who die in needless ways,

Covered up and buried by monies senseless days.

.

The answer is to bring to justice all of the free killers,

Who continue in their evil, preying on innocent sillies;

People who are living a life in faith and grace of God,

Who don't try hard enough to prove that their not odd.

.

I'm unable to talk about it but need the help of Christ,

For the truth we trust as certain must not be spiced;

Seeing is believing in the spiritual crystal ball of life,

On and in the earth where there is answered strife.

.

Signed,

Understanding Intelligence.
