

Anticipation is what we think will just happen,

We don't know whether we'll have money or be happy;

But the best thing to do is to anticipate what's true,

Then you won't be disappointed believing it through.

.

Now I don't know what anticipations hoping for most,

Is it the return of our soul or live on like a ghost?

But the pleasantness is always anticipating the best,

That we will get all we need and enjoy all the rest.

.

Is anticipation a passion and power or a pattern?

To see a clear future and remember what matters;

We eat with the anticipation that our food will pass,

To be blessed in our future like we mow green grass.

.

Anticipation is waiting patiently, expecting what'll be,

Like a boy will grow up and might of climbed a tree;

Predicting is very hard as you are not always right,

So it is best to see clearly in the truth and the light.

.

It is hard to be certain in anticipating the cause,

Or being lost and unable to anticipate the clause;

In creation you are puzzled anticipating the reason,

And that will depend on the month and the season.

.

Anticipation can be a way of when time will pass,

Like we all learn in school to be top of the class;

Or anticipating the time will leave you high and dry,

For in anticipation we know we all have to try.

.

Signed,

What did you want?
