

What shall we do when our life is at stake?

It will depend on decisions in time that we make;

Decisions are important things to keep well in mind,

To stay on the right track, avoid trouble and be kind.

.

Sometimes it's a matter of being or waiting your turn,

To think being relied upon to act on decisions to earn;

And when we do things it requires decisions at work,

So the right outcome will eventuate and it's all worth.

.

We try to decide upon what things will make money,

Or a joy in what to eat, especially topped with honey;

The brightness of decisions is the brilliance of heart,

That the answers will be honest, truthful and smart.

.

The best decision to make is the wife for your life,

A spouse who will love you and keep you out of strife;

The problem comes with indecision when it is people,

Then the decision comes for a birth, death or steeple.

.

Well it could be that all of life is a total uphill battle,

The cats in the cradle and the babies got the rattle;

So the decision is to be fit and stay young in heart,

With the continuous ware of each and every part.

,

The trouble with decisions is affecting someone else,

Unknown and unaware of who it is costing yourself;

So the better you do to think and make it what's right,

Is left thinking in your mind what money is just might.

.

Signed,

It won't hurt me.
