

There's beauty in the purity of everything around,

In the perfection of creation living above the ground;

Holiness is the virtue of a loving heart for God,

With sin in the sunlight and him seeing all the odd.

.

The reason for the living is the joy of blissful peace,

If holiness is righteousness, wars and strife to cease;

A fight will still continue in the spiritual mind of man,

As the Devil waits in battle to mean his wicked plan.

.

The answers a blessing of salvations head and heart,

Where the evil goes on sinning by people being smart;

The losing seems as winning in reflection of the time,

The struggles worth the effort for those in the prime.

.

God will save eternity for those who live what's right,

Not living in the darkness but looking for the light;

Where love is being greatness to those who believe,

The holiness is perfected but still hard to achieve.

.

Some will doubt that religion can help or save at all,

The glory is in the waiting for the final marriage call;

The reality is that holiness exemplifies being clean,

In relationships it stops indifferences that have been.

.

The wonder is in the living of the future yet to come,

My silly stupid thinking is stopped from being dumb;

Holiness leads to quality and achieving earthly sums,

For that is worth wanting while still under the sun.

.

Signed,

Stop the Sinning.
