

Rigidity and structure of things must be right,

But people are human and right should be delight;

Righteousness is the state of the law of the mind,

With everything perfect and wholly intellectually kind.

.

It's a bit of a tall order to demand such a high standard,

To have things of truth in the light of the plan granted;

They're manifested in ways of a righteousness requirement,

And represented as riches of heavens kingdom refinement.

.

Is righteousness a goal or aim to desire?

Or a peace and a freedom to attain and acquire?

Life is a gift of the intelligent right,

To be left in our hearts with an eternal light.

.

Righteousness, how beautiful, so brilliant to have,

That if integrity and democracy could perfectly save;

Not magic or tragic but totally unique to the cause,

Of the leading of diligence to the whole earths applause.

.

And righteousness is a harmony and being on time,

For the creation of space and resources that prime;

It is fit to conclude that righteousness seeks,

Relationship with God and to rid unwanted cheeks.

.

It is hard and not easy to have hold and achieve,

That by faith we believe and through grace we receive;

It is a monumental management effort to retain,

Now cast off your worries and within sin refrain.

.

Signed,

Self Fulfillment.
