

The question to be asked is what is the right kind of dictatorship,

Is the leading of massacres in blood or a manager staff relationship;

To lead the dictation of notes to be typed for advancement of work,

Is a positive attitude and the right relationship of word.

But dictatorship can be to domineering and getting one's own way,

When he thinks he is right and doesn't listen hard for what to say;

So the leader is pig headed and ignorant to what is the best,

And he hasn't got the mark or passed and achieved the high test.

So the countries of the world are best left to the women,

Where their work gets done and the men earn money for giving;

Like the problem and the pain can and can't be solved forgetting,

And the answer for keeping is having and holding while you are living.

Now there are some dictators that want to get away with it all,

And that is a crime and not allowed on this earth's ball;

For submitting to authority should not be lowering yourself,

But standing up for what's right by all the books on the shelf.

Well if I myself was the self that expected to get away with all that,

Then you would have to judge me and I'd be accountable with that;

But you know and I know if we judge we are judged by ourself,

For when I face you it is like looking in a mirror at myself.

Then I guess dictatorship is just something that just makes us feel small,

For I like you am just one not smart enough to beat them all;

For in life it takes two to tango and you can get tangled with more,

So we need a wife like God who keeps us in tough with real law.

Signed,

Themselves
