

What to be understood to be conceived in conception,

Is it getting married and having children after wedding reception;

And how do we get to know if this is really perfectly right,

After all we're all made in the womb and come out as children might.

The naivety of a child is to have faith in God for money,

Which is really truly lovely but not spiritual wise if hot and sunny;

For winter comes along and rain and winds blow extremely hard,

And you really need to grow up before you can earn your own yard.

As children of God are like a child who looks to their heavenly father,

To try and find what their like and want for would want to be rather;

Maybe a spiritual person who is not a statue or statue of the state,

But someone who earns fame by learning to understand and relate.

So if you think you have got money and it right to go where it's going,

Then you can be a poetic person and remember well what you were doing;

Now if you understand this conception are you at work or the reception,

For the beautiful brilliance of this knowledge is just in understanding it's conception.

So as the sperm pierces the egg by natural or unnatural causes,

By being perfectly made and formed for the whole worlds earths applauses;

Welcome to life and join in the quest to live a long time for coming,

For one day you will be returning and that is a very special precious something.

Well thank you God for causing me and bringing me to earth to live,

That I might thank you personally when I'm old enough to really give;

For the heavenly mighty majesty of his awesome lovely presence,

Is worth more to me than all my Christmas with gifts as presents.

Signed,

Here I am God
