

Life without meaning and purpose is dull,

When people make things all void and null;

Meaningfulness is a pleasure and treasure of point,

Which can be painful or enjoying in any given joint.

.

Love helps to make all the world go around,

And money is a reward in time to manage above ground;

Work is a service and a need for requirement,

That we can acquire what is wanted and save for retirement.

.

Giving is a luxury that God blesses to the generous,

Making meaningfulness reciprocal an inadvertently prosperous;

Seasons change in time and the world turns each day,

As we orbit the sun with the planets in their way.

.

Sexual gratification is a means to an end,

Those children will come and through family depend;

Marriage is the right way to live on morally,

So the truth of the story is to not live morbidly.

.

Meaningfulness really the answer to the question,

Of what is right and dignified in obvious suggestion;

The history of places and geography of people,

Are why things are granted and God is a steeple.

.

Like clear crystal blue water of an aqua marina,

Or diamonds and sapphires, emeralds or rubies are meaning;

Life is a gold mine of opportunities and scenery,

So the earth and the heavens, the blue sky meets greenery.

.

Signed,

Eternal Paradise.
