

I was born and came into this world,

To make my one life count and be of worth;

Something of value and plenty of peace of mind,

Showing kindness to those who were humble and kind.

.

Make my life count I screamed from the dark,

Fill me with light and ignite a spark;

Show me the truth of passion and wisdom,

Teach me love to know and not wither.

.

Make my life count for it is my one true hope,

To see clearly what's right and how always to cope;

Give me an understanding of all you have for me,

Tell me what I can do and all I can be.

.

Make my one life count, please ensure that you do,

To tell and to need of what all can come true;

Lead me and guide me and show me the way,

So life won't be dismal and not in dismay.

.

Make my one life count; I put all my trust in you,

Forever to live and in truth forever keep true;

Manage my day and reflect on all of the days,

That there is reason for living and ability of pays.

.

Make my one life count this I ask above all else,

That it is not going to waste or be totally of self;

Forgive what is wrong and remember the right,

That we never forget or lose sight of the light.

.

Signed,

Eternal Skies.
