

Products meaning cleaning and manufacturers make,

When its broken throw it out and to the tip you will take;

The tip for the meal for the waiter won't break,

But the cost of the food for the world is more like a lake.

.

The tip for it is that it is just a piece of cake,

And collect all the leaves with a broom or a rake;

For the cow gives the milk and the bull gives the steak,

Don't mistake the blood for a flood or the sin is a snake.

.

The tip for it goes along when you think God's a fake,

Jesus took the sin and it's the cross for your sake;

Forgive and forget don't deny, doubt or forsake,

Because that will cause trouble and make a mistake.

.

Hair on my head and people looking me in the face,

Things cost money and the balance is in space;

The tip for it is do things properly and right each time,

The earth is worth the birth of everybody the crime.

.

The tip for it is eating whatever you like,

The service is the reward for all the hard work of your life;

The money comes and goes to each everywhere,

And the world is the kingdom of water and air.

.

The tip for it is to have things go their own way,

Through all of the turmoil and trouble each day;

The problem is rife when it all goes to the one,

And in death what was dead is out shone by the sun.

.

Signed,

More to Life.
