

PARSIFAL'S BRIGHT RIGHT POEMS

INTRODUCTION

Well here we go again and another big welcome to my readers, as you come back to a book of poetry again, that I am hoping and knowing will take you in. Here we start to focus and get the picture of a big idea that will become very humble by the end of the book. The universe is infinite and the skies with the sun shining through have an enormous potential for harvesting and digesting. Though with massive amounts of work in a single sixty page book or a large number of those, this one number 25 of poetry now. We just have to slow down and reassess the whole idea of writing. Bright Right Poems, will stimulate your mind, slow down your heart rate and just help you to think on the more positive and right ideas of living. The brilliance is only superceded by originality and therefore the obvious subject matter is of writing smarter. Intelligence is a gift of God and an effort of hard work, patience and perserverence, we simply have to try harder, to have a higher intellect. Read more, write more and stay focused on the crux of the criteria and its vital importance. We are all born with every opportunity in the world and we each day take time and make decisions as to how we will spend our time during the day, ways that we can make money and ways that we can't. Things that we can write and things that we can't. Not everything is acceptable and not everything is legal. We have to know and obey the law, the laws of nature, society and God. The gift of grace for all those who work too hard or hard enough, grace is a beauty of behaviour, we simply can't do it all on our own and we need sabbatical time with God to listen to others, read more, digest more and take more in, so as to be able to write at a higher level and standard, for greater input back into society. We just have to be smarter, learn more and understand the knowledge and wisdom of the universe in all its wide and diverse aspects. The fundamental question of living is not how much money you can have, time pays money over time with time. Money comes and money goes, lifestyle is about contentment and refinement, working diligently and with a concentrated focused effort for advancement. We just have to learn to know our limitations and physical requirements of necessities first. Now as I start to write an intellectual based book on brighter wrting, which is just about wholly inspired by God and His cosmic universe, with a sun that shines endlessly down onto his earth through the dark. We all have enough earth time to process thoughts, it is just about using the academic aptitude for discovery of intellectual advancement. Now that I have created an arguement for working with intelligennce, I am about to get simple again and say poetry is for sinners who want to be redeemed. Aspects of wisdom reflecting truth and honour. Christ focused once again with God in the middle of everything, not with the muddle of the devil who wants to go along for the ride, he must be bound and locked up, he creates a picture of confusion. God sorts everything out in the brightness of the day, giving perspective and enlightenment to those who try and read and write to fix things and restore the law and order God originally intended for us as good. It will be great to create, it will be light and easy, it will be deep and hard, but mostly enjoyable, welcome once again to the

new book of Bright Right Poems. I will let the righteousness of God do the leading, my simple job is to just follow and take notes for writing inspiration. Now let us get on the job of writing and reading it within the guidelines of an enormous God who came to earth as a simple human being. Great to be with you again, lets get on with the job, welcome, here we go and enjoy the read.~Â Darel McAllister.

CHAPTER 1 INTELLIGENCE

1 Bright As

Bright as day, right as night,

The light is something in which to follow;

Something shallow, something hollow,

Sun shines through as the mighty doller.

Bright as bright, humble light,

Light shining through the day light;

God of mercy, word of life,

Truth is shining in the light.

The Gospel of John, the word of light,

Jesus shining through day and night;

The word was in the beginning,

The light was the life of man.

Bright as coming , bad and going,

Returning in the light of truth;

Christ all living righteous proof,

Living wondering, people alouf.

Bright as the sun, shining right,

The rays are beaming in broad daylight;

Through the windows crystal clear,

And stained glass windows in colour light.

Bright as why is wisdom shone,

Refractured, twisted, decyfered right;

In words of prose and poetry,

Understanding now the light of life.

Signed,

Church People.

2 Right As

Right as right, it just must be,

Right and true, clear as light;

Right to write, write as right,

Understanding kingdoms light.

Right as it can be expected,

Must be true and ready for you;

Bright as blue, read the red,

Flowing freely, as circulating.

Right as rain, clear as water,

Air and light, breathing fresh;

Drink it in, see it right,

Pleasing, holy, with great might.

Right as things just want to be,

True and righteous, needed to be;

Beautifully based, brilliantly,

Bible books, believing in you.

Right as the message intended to be,

Art of the mind, the brain to see;

Poetry pleasing, remember me,

God is right as He must be.

Right as sermon notes are true,

Meaningful, happiness, living proof,

Understanding knowledge of self.

Signed,

Well Interpreted.

3 Light Is

Light is bright and nondescript,

Shining from heaven to our eyes,

Seeing clearly what has been,

Through the light and sight of God.

Light colourful, morning fresh,

Clear and crisp, bright and right;

Seeing clearly God will come,

Into the hearts and minds of some.

Light is good and clear as day,

Each morning and different ray;

Watching seeing, who did what,

Christ is good and God a lot.

Light is right from here to there,

Coming from the sun with care,

Night is dark, but lights a spark,

Heralds angels to hear the hark.

Light is due from morning shower,

Seeing Christ come as God with power;

First look out to what God will want,

Listen carefully to what would what.

Light is clear and free to see,

Coming cleanly unto me;

Best the brightness and the beauty,

Light as right, I've done my duty.

Signed,

See the day.

4 Sight First

Sight first, but walk by faith,

Seeing in the dark of night;

Write the wrongs to right,

Seeing rightly, all God's might.

Sight first, but not by right,

Faith first, but not by sight,

Understanding what is right,

Walking daily in the light.

Sight first, the truth is might,

God first, the truth is right;

Must be understanding sight,

Faith in God is always right.

Sight first but listen carefully,

To the truth of magesticness;

Bright and right I see the light,

Walking daily by faith not sight.

Sight first, but which way,

How can I know the way to go;

Looking always unto God,

Thou will know, where Thou has trod.

Looking forward, face the truth,

Faith is right to me and you;

But where and when I must compare,

I will follow where though has been.

Signed,

Thou as me.

5 Faith Forever

Faith forever, I must keep hope,

To travel where Thine angels spoke;

Loving God, I trust in Thee,

He will look after you and me.

Faith forever, unto me,

I will trust inThine and Thee,

Thou Thy love unto me,

Bless me to be free with love.

Faith forever, God knows me,

I will humble unto Thee;

Thou is good and Thou art great,

God's love and message I relate.

Faith forever, morning tea,

Thou my God, has been good to me;

Afternoons and dinner time,

Breakfast first for coffee time.

Faith forever, first to Thee,

Love of God unto me;

I love God, can't you see,

God the best faith for me.

Faith forever, look above,

All God's goodness and His love;

Come to me, when Thou will call,

I will hear both tall and small.

Signed,

One day.

6 True Hope

True hope happens, true hope life,

Goodness gracious, truth is right;

God with others, good to me,

Truth and mercy, good to see.

True hope believes, sees the reason,

God loving me, me loving Him;

Fresh in the sunlight, kills disease,

People breathing, pills with ease.

True hope listens, good to hear,

The way things are, how things appear;

Seeing the truth in the light,

Reason to believe what is right.

True hope understands, comprehends,

Borrowed lending, returned to friend;

Luck with the love, not quite right,

God is love, everythings right.

True hope forever, hoping happily,

Christ is the light, mightily;

The best of the light, life of God,

Heaven happening, hope is right.

True hope deserves, lots of love,

Faith frst forever, things above;

Gracious and merciful, all redeemed,

The life of Jesus, blood washed me clean.

Signed,

A real good day.

7 Writing It

Writing it easy, writing it simple,

Hope and belief, nothing sinful;

Something with truth, good to see,

Writing it right, great to me.

Writing is really, not all that good,

Bad boy being, mad mood money;

Writing it hard, or so it appears,

Grace and mercy, fruit to me.

Writing it harder, things work out,

Good for each other, what is allowed;

Means for the good times, always wins,

Trouble for grey days, something sinned.

Writing it, imagining it, all things real,

Gracious mind, how you feel;

Good to think clearly, everything unreal,

Perfect and happening, true as steel.

Writing it perfectly, natural selection,

Giving me granted, attention detection;

Choose what you want wisely,

Good things help people agree.

Signed,

Wanting for free.

8 Time Wins

Time wins or just so it seems,

Lost in my mind, or in my dreams;

Keeping it simple, surplus cream,

Not as sinful as things might mean.

Time wins out, count me in,

Money for spenders, costs a fortune;

Music is playing, better the tune,

Listening instead of writing.

Time wins out, best kept secret,

God knows you understand;

Things in the right light,

Beauty is best to understand.

Times wins this time, time is right,

Not lost in mind or out of sight;

Keeping it organised, truth is right,

Studied the thought, reading write.

Time wins again, this next time,

More time, that is still to come;

Patients of waiting, stations online,

People getting on and off the train.

Time wins for sure, the beach shore,

Playing in the sand, time lines mine;

The sun is a gold mine, Gods mind fine,

Creating the tide and the waves, ticking beating.

Signed,

A good book.

9 Sign For

Sign for this and sign for that,

If you go into the sun, wear a hat;

Sunscreen and lotion, smart makes sense,

Gods ultra violets, burn in the heat.

Sign for those, sign for these,

Anger and violence is disease;

April showers, April flowers,

Pills on the intake, my mistake.

Sign for the literature, anyway you please,

What suits me and what suits you;

What is right and what seems true,

The best of beauty, the best of blue.

Signs for drivng, see what you need,

Don't break the law, fines apply;

Just in a nick of time, lights we see,

Police are dawning, another day please.

Signs of the weather, you can see,

Know what you are reading;

See what you are leading to me,

I know what I need, you read me please,

Signs of whatever, Jesus is coming soon;

Take in the weather, whether you see,

The bright days ahead, from overseas.

Signed,

No good yawning.

10 My Might

My might, might be your might,

Your sight, not my sight;

Wrong again, write to me,

Right to me, just might be.

My might, your might, might as well,

Seeing order, chaos strays;

Law is a good thing, trouble perishes,

Best in the light, the truth will win.

My might, God is mightier to me,

My might is the love of God;

God might be happening to me,

Grace and truth creation wins.

My might, might by my might,

Your might, might be reading me;

God might be leading us,

We need to see what is His.

My might, your might, God's might,

Strong and true and right to me;

God's might just what will be,

What must be, what will be, truth and light.

My might, what might, just might be,

Something happening true to me,

Best in your sight, what might be,

Prayer to God for what must and might.

Signed,

What is new?

CHAPTER 2 NICE LIGHT

11 Nice Night

Nice light to see, colours are bright,

Clear as the day, dark as the night;

Sun through the clouds, rays to eye,

Bright coloured days, refracted light.

Nice light to see, heaven is heavy,

Must be the right light, life to see;

Weighing and waiting, retaining forever,

Light is right for health and happiness.

Nice light to know, remember the words,

Down on the page, discovering birds;

Listen to hear, truth may appear,

In the light light to know, heaven is clear.

Nice light to have, want the best thing,

That can be anything furnished within;

Beauty portraying, the right light to see,

Right for the day, heaven for me.

Nice light to consider, reflecting perfectly,

Bright brilliant contrasts, mirror paradise;

Looking for heaven, angels adore Thee,

Bright light for heaven, nice to reign, He.

Nice light I reckon, clear as the day,

Clean whistling breeze, course you can't see;

Right light, the nice light, light as can be,

In perfect harmony for you and for me.

Signed,

Problem Promise.

12 Lights Right

Lights right, soft and gentle,

Mantle, men and man, mental;

Wrong women, woman wrote,

Words, works, writes, water.

Lights right, beaming gracefully,

Perfectly and good to see;

Clear, clean, consciouence free,

Meaning nicely, a green tree.

Lights right, night sky,

The sun shining down to me;

Rays beaming moonlit dreams,

Stars streaming, moonlit light beams.

Lights right, don't fight the flight,

So it seems and apears to me;

Perfectly shining, sunlit rays,

God talking peacefully, light of day.

Lights right, it just has to be,

Sight seeing true and free,

Right to me, write to you,

Rivers running, go their way;

Lights right, can't you see,

You question and ask me;

The problem is, everything clear,

In God I draw near and hear.

Signed,

Bright beams.

13 Sight Right

Sight right, seeing clearly,

Bright right, keep it clean;

No more litter, literature means;

Put it in the bin, no more sin.

Sight right, a zillion or nothing,

Nearly everything nil to me;

Keep me covered, something coming,

God your watching, nothing funny.

Sight right seeing what you want,

No more pushing or shoves a lot;

Being kind to people, who will what,

God the ocean, air a lot.

Sight right perfectly, reflecting clearly,

Just the way it should be to me;

Relating rightly, clear to see, you see,

I am landing, running along the tarmac.

Sight right, strapped in for the flight,

Taking off again, still nothing wrong;

Flying through the atmosphere, in space,

Seeing the curvature of the earth from the air.

Sight right, driving along the road,

Life is a journey, it is fair to say;

The road and path, the walk of day,

I am glad you helped me in what to say.

Signed,

Viewing adventure.

14 Night Light

Night light, right knight,

Bright night, knight light;

Dark night, dark ages,

Black knight, medieval.

Night light, right to see,

Right to me, light days;

Reading writing, good to see,

Light of day, dark knights.

Night light, see the words,

Bright knight, light night;

See the light, middle ages,

Clear to me, see the light.

Night Light, which one way,

Right knight, write clear;

The knight wins, one night,

Won the day, light waves.

Night light, street life,

Stay at home, safe and sound;

Good to live, The dark knight,

Rock of ages, God the light.

Night light, dark of day,

Right light, knight to pay;

Best right, write the night,

The light knight, right OK.

Signed,

Knight light.

15 Day Light

Day light seeing, day light robbery,

Seeing clearly, no snobbery;

Pay the way, daylight hours,

Night time, turn out the light.

Day light, clear as clear,

I have been wrong, I've been here;

Weeks and months, days and years,

Day light time, time to go out.

Day light, plenty to do,

Lots of things for me and you;

Fun to work, God is good,

Work for time, rhyme for money.

Day light, God is bright,

Seeing us as we should be;

Doing right, doing good,

Muddy people, creepy people.

Day light, the good knight,

Lots of nights, day light;

Bad nights, see the day,

Going each their humble way.

Day light, sun shines bright,

Light rays, the knight days;

The knights life, day light,

Go your way, seize the day.

Signed,

The good knight.

16 This Way

This way your way,

I did it my way;

Frank Sinatra,

Eat your heart out.

This way, my way,

I am going your way;

If you go my way,

I will go your way.

This way, new day,

Everything is Ok;

Good year, your beer,

Waste wine, not water.

This way, your Ok,

Wait tables, not weight;

Wait for rain water,

Water weights, for itself.

This way, I am OK,

I write, I am right;

You read, your way,

My words, way of day.

This way, the other way,

That way, have a good day;

Next time, money is mine,

The other way, this is OK.

Signed,

Next Poem.

17 That Way

That way, others OK,

My way, that way;

This way, your way,

My weigh, that way.

The other way, that is Ok,

The best way, your way;

If I go my way,

You will go your way to.

Not sure which way,

Weigh it in the balance;

Each way a sure way,

Make up you mind, which way.

That way, weigh for me,

100 Kgs, 1000 kms;

Christmas was, good as gold,

God creates that way.

That way, right for me,

Which way, write for you;

Eats weigh, that weighs,

A kg each way, my weigh.

That way, its Ok,

Best possible way;

For me and you,

Your way, your weigh.

My way that way, I get mine,

Your way, you get yours fine;

Best way, right way,

Write for me, read for you.

Signed,

Best Bit.

18 Streaming Beams

Streaming beams of sunlight,

Its the buisness, if you are in it;

Seeing clearly, sunny days,

Shining right into my heart.

Streaming beams of happiness,

Pleasant pictures home to see;

Pretty moments of beautiful,

Brilliant light shines in darkness.

Streaming beams of wood,

You would, if I were you;

I will do it my way anyway,

Love you to go my way.

Streaming beams of worriedness,

Working, wanting, waiting, words;

All the way you lead, God is good,

Will you listen to me everyday.

Streaming beams of troublesome,

Thoughts of praise and productivity;

Prayer for peace, in and of activity,

Doing and going, perfectly.

Streaming beams of sunlit days,

Joy and peace forever;

In good and clement weather,

Problems just seem to go their own way.

Signed,

Property Patience.

19 All Array

All array bright and shining,

Stars of speckled, spangled order;

Rays of light from the sun up there,

Very pretty coming shining down.

All array, and it good condition,

Cars going everywhere, so it seems;

Line them up in grid formation,

Put the pedal down in town.

All array, organisation discerns,

A lot of money, all that you can earn;

All array, change again, its Ok,

Its my money anyway, your Ok.

All array, rainbow days are fine,

Best people don't drink wine;

Water your beer down, not mine,

Don't waste spirits, God use mine.

All array, best possible outcome,

Desired and attainable income;

Good results, you pay the fine,

Good weather, best is mine.

All array, all of the day,

Sun shining through the clouds of time;

Light on my mind, heavy heaven,

Making money, whatever is inclined.

Signed,

In the wind.

20 Rainbows

Suit yourself, I am doing it,

Rainbows through your mind;

Beautiful colours, all bright,

Brilliant rainbow reflection.

Refracted light, water vapour,

Vaucluse, Point Piper, interaction;

Double bay, Rose Bay, attraction,

Rainbow ways, cloudy days.

Bright shining through the skies,

Rainbows paint a pretty picture;

Poised perfect, possible selection,

Connection, rejection, detection.

Rainbows are a lovely complexion,

Painted through the skies perfection;

Reflected in a lovely relationship,

Family time and money for children.

Rainbows really right religiously,

Written, eaten, drinking, beating;

Cosmic wonder, drops of love,

Fantastic colours, God's perfection.

Rainbows shining through the skies with love,

Coloured, beaming, bright government;

Brilliant mined, coloured with faith,

Every rainbow, the universe hopes.

Signed,

Great Goodness.

CHAPTER 3 REALLY RIGHT

21 Got To be Right

Go to be right, write it clear,

Understand what I mean;

Seeing what you have to clean,

So its worth seeing where you have been.

Really right, put it down in words,

Sit back and listen to the sound of the birds;

Beautiful music, the mind on the matter,

Stop all that banging and noisy clatter.

Going to be right, whatever you say,

If it takes all time, if it takes all day;

Money for the moment, memories might,

Make it mean if you can, where you have been.

Got to be right, really right,

Sight of the oceans, mountains might;

Hear the wind blow, through the trees,

Breathing through my nose, good to see.

It has to be right, get it right,

Lift Jesus higher, up for the world to see;

Coming through the clouds in a second,

Planes and trains, by land or see.

It has got to be right, right for God,

Everything in the light, nothing odd;

Pleasing to see which way He goes,

Time through the dark ages, everyone knows.

Signed,

Flat plains.

22 See It Clear

See it clear, crystal clear,

Clean as a whistle, right near;

Perfectly clear, while your here,

Hear and see the sea with fear.

See it clear, prayer is fair,

Life in well spoken words;

What you saw and heard,

Best of the given situation.

See it clear, as plain as,

The nose on your face;

Head and mind around brain,

Heart if you want it to rain.

See it clear, best is yet to come,

Not what you don't know;

Who is it, that is not dumb,

Numbers you must know and need,

All the bread that you can eat to knead.

See it clear, possibilities all to me,

Keep it going and smooth flowing;

Doing everything to make complete,

Doctors do not deceive but receipt.

See it clear, is all you need to do,

So that the future is brighter for you;

Brighter for me, beautiful to you,

Best of everything happening true.

Signed,

Complex complacency.

23 Keep Perfect

Keep perfect, all the time,

Lots of love, rhyming rhyme;

Best of the best, all the time,

You just have to be better to beat.

Keep perfect, select right,

Stay on side, do what is right;

Money in the bank, all the time,

Just how much you have and haven't.

Keep perfect, watch yourself,

You might end up being someone else;

Not good to mess around,with the wrong people,

Get married in church under the steeple.

Keep perfect, behave yourself,

Watch what you are doing, not someone else;

It pays to know, what one is doing,

All the way around the world and keep on going.

Keep perfect, waiting takes time,

You are so busy with things on your mind;

Getting things done is another thing,

You can't sit doing nothing and expect to win.

Keep perfect, a sign of the times,

Doing good so people can understand;

Within reason of what is in high demand,

Reflecting the image of God with command.

Signed,

Stay Cool.

24 Stay Right

Stay right, stay tight,

Look around, is all all right;

God cares, He is perfect,

Looking at you to, are you nearly.

Stay right, look right,

Good looks at the heart and soul;

What is wrong with rock and roll,

Being great, can take its toll.

Stay right, it is good to be,

Nice to have and great to see;

What is right for you and me,

Not what is wrong, with the hard fight.

Stay right, look at me,

I love birds, they are free;

Lots of words and trees to see,

Loving God, His truth to me.

Stay right, loads of love,

Robots come and rockets go;

Technical electronics overflow,

To the place in space to know.

Stay right, things to know,

Lots of good as onwards go;

People moving on from here to there,

A new home in heaven, still yet to appear.

Signed,

Earth time.

25 Truth Really

Truth really, the hard facts to know,

Love that lasts for all eternity;

Life has its moments, it is still fair to say,

Just keep on going in any fashion or way.

Truth really as hard as it really seems,

When the best thing that you can possibly do,

Is to believe and to look upon His face;

And acknowledge what you can and can't do.

Truth really, the best thing possible,

When all works out right and probable;

A logic order for everything going right,

The best of everything, heavens delight.

Truth really, just what you need to know,

What has been and what is to come;

Plenty to do and everything you have done,

Love of the real world, everything fun.

Truth really, what is happening for me now,

I should always know what I am doing;

Saying just what is on my mind,

So that people will understand me.

Truth Really, hurts right deep down inside,

Sharing your opinion, keeping people onside;

Deciding what is right for yourself by being kind,

So that you end up with peace of mind.

Signed,

Might be right.

26 Beautifully New

Beautifully new, what else can you do,

But love every moment happening true;

What was old, is gone and passed,

The good old days, if only they could last.

Beautifully new, she smiles again with love,

The good things of God come from above,

Looking pretty, sitting there, if only I knew;

What makes her tick and my mind to congrew.

Beautifully knew, what is old again has been,

Everything growing fresh and clean anew;

Like the first taste of Spring time and newness of leaves,

God has been there first, everything new returns.

Beautifully new, flowers blooming with straight love,

Noses smelling rose drops and perfume fragrances;

The best in life comes abck again, to remind you true,

So that you can remember everything that you knew.

Beautifully new, what goes around comes around again,

In glorious new colours and senses of being;

Tastes of God's kingdom straight out of the oven,

The ancient ruins are modern times in government.

Beautifully new, splashing around the cash,

Buying anything to your hearts delight;

Things in shops left there sitting on the stands,

Eating at restaurants or from supermarkets everywhere.

Beautifully new and beyond all things else,

The best books in town, still sitting on the shelf,

Read till you mind can't take in any more words,

Sit back and listen to a new song of the birds.

Signed,

Coming back true.

27 Blue Bay

Blue bay, water looking fesh and new,

Cool and clear, clean and very true;

Beautiful to look at and a lovely blue,

People looking at people swimming there.

Blue bay, picture, postcard, perfect,

Looking at the surface as a reflecting mirror;

Water of life refreshing, causing no strife,

The love of your days, the time of your life.

Blue bay, not so far away in time to see,

An inlet from the beaches and harbour;

Golden sand lining the beach and bay,

Cooling down in the water on a hot summers day.

Blue bay, best solution is to cut all the pollution,

Keep it pristine for others to love and enjoy;

Peace as the river flows out and in again,

The tide changing and flowing in and out.

Blue bay, a lovely place to go and enjoy,

A place of peace and a sanctuary of rest;

Bright sun shining down and blessing,

Giving people a good understanding and dressing.

Blue bay, possibilities seem unending, coming to mind,

Not sure whether I have anything left though, for people to see;

The skies matching colour blue, true to see with the eye to,

Blue oceans and rivers all running into a place called blue bay.

Signed,

Cool drink.

28 Clean Water

Clean water, very refreshing,

Sweet tasting and rejuvenating;

Hydration, health and happiness,

Circulation and revitalization.

Clean water, beautiful to drink,

Lovely to see, clear as can be;

Using it for washing and cleaning,

Many a purpose that you can find.

Clean water, what do you see?

Best of everything, true to me;

God gives us life to keep going,

Clean water, sustenance to be knowing.

Clean water, through all the ages,

Of flooding and drowning in pages;

Rain falls down nice as can be,

Filling the dams for you and me.

Clean water, life in the balance,

More than food and not as much as air;

But a vital commodity definitely for sure,

Like the sun shining down, we need a drink.

Clean water, What do you all think?

Are your thoughts as clear as crystal;

Is your mind focused on the right thing?

Best that you can do, is to drink clean water.

Signed,

Taste the difference.

29 Crystal Clear

Crystal clear, as life is dear,

People in prayer and drawing near,

Closer to God, as all should well be,

Lines written down and right in style.

Crystal clear and trees need water,

A life giving drink of what you need;

The thirst of many, satisfied by plenty,

A drink of water or maybe twenty.

Crystal clear, not thrown like mud,

Purities flowing through your blood;

Get the picture, Noah and the flood,

Abraham, Moses and David's mood.

Crystal clear, Lord of Lords and king of kings,

Jesus Christ, what are you waiting for?

He will come back, the way you saw him go,

He will lead you home to the kingdom of God on high.

Crystal clear, don't you see through it all yet,

Are your eyes with scales or blind from night;

Turn your hearts and minds unto the king,

He will lead you to the righteousness of light.

Crystal clear, the water that you drink,

The best of life, Jesus living water;

Take another breath and have another think,

Can you connect with God, is it to Jesus that you link.

Signed,

Best in the end.

30 I Like It Like That

I like it like that, take off my hat,

Raise your glass and drink that;

Don't get drunk on alcohol,

It will lead you to the dark.

I like it like that, take off your hat,

Raise your glass to God and have a drink;

Drink of the water of eternal life,

Everlasting life that will always last.

I like it like that, Jesus come and see,

Have a look at you and have a look at me;

Do I meet the standards? you so highly ask,

I have not done it by myself, you took me to task.

I like it like that, you just keep on going,

Stop to say high and then pass me by;

You are going sailing on up there sky high,

Heaven is really paradise, I need a plane to fly.

I like it like that, brilliant mind, bright blue sky,

Still trying to fly, up in the atmosphere so high;

God bless Mary and Joseph and His son,

Jesus son of God, You are The Christ of God.

I like it like that, the plains across the country,

Plenty of air as free as a bird, just you look and see,

God gives us plenty and all and everything we need;

I love to travel by train, across the wide brown land and read.

Signed,

Need clean, clear air.

The earth turning around after being hurled;

Different degrees and the same old place,

The beauty of Gods loving smiling face.

Twenty four hours every day and night;

Reading, turning, see God in the light,

Three sixty days and three sixty degrees.

Perfect vision, helps us all to see,

The mission on earth is nearly finished,

Help God do the job to keep on going.

Say what you like, right or wrong,

Living life as long as you can.

Things happening as just possible;

Things happening true as true,

Good and right to me and you.

Reading the writing, you have known to see;

Remember the words you did see in me,

Really the writing is right for me to see.

All the righteousness of God in Thee;

The length of life beyond all measure,

The heights of heaven, are eternal treasure.

35 Brighter Eyes

Brighter eyes, happier eyes,

Smiling faces, looking wise;

Seeing smarter, asking why,

Captain Cook on his charter.

Brighter eyes, stronger eyes,

Healthier, happier, seeing skies;

Remembering stars and space,

God's good love and great grace.

Brighter eyes, bright blue skies,

Sunny days and seeing right;

Writing brighter with eyes of light,

A few tears, the dear old deer died.

Brighter eyes, the best of blue,

Brighter eyes, bright blue skies;

The best of life, bright blue eyes,

Shining sun down through the skies.

Brighter eyes, see it all clear,

The world of yours has dawned anew;

The earth not so small, but big and blue,

The green spinning ball, is still on call.

Brighter eyes, will still see it all,

Hang around till it is all finished,

All complete and not diminished;

Brighter eyes, will read and write it all.

Signed,

Coming back.

36 Its A Clear Day

Its a clear day, shiney and new,

Bright and happy, like me and you;

See what it has to offer to you,

Brand new day, clear and clean to do.

Its a clear day, not a cloud in sight,

Blue skies beaming in heavens delight;

Overcast forcasted, not God's way,

Bright as bright, years are passed.

Its a clear day or maybe that is just how it seems,

Clouds stream past and go through the day;

Venturing freely their own way to dissapear,

Till once again it is a new day drawing near.

Its a clear day, sultry, humid, despairing there,

God brightens up the whole thing in a single glare;

Reflecting His glory and endless days and years,

In beautiful tears of raindrops fountaining again.

Its a clear day, can you stand to stand the brightness,

Cover your eyes from the dark of night;

See the sun shining clearly in bright day light,

God rules and reigns over all the earth.

Its a clear day, sun shining down brightly,

Now without a single cloud in visible sight;

Its a bright as bright as can be, right to see,

As long as your troubled eyes are focused on Thee.

Signed,

Heavens Kingdom.

37 The Sun Shines

The sun shines down beaming on me,

God the father, Going further for Thee;

God the son, Christ to be as Thine to me.

All I see is a big ball of fire for The Devil.

The sun shines beaming down on me,

God sent Satan to burn in eternal hell;

Christ returned to heaven and sits at right to Thee,

Smiling, loving, looking, frowning and fighting for me.

The sun shines down, heavens angels laugh again at me,

Why am I troubled and looking up and upon to Thee;

The sky is clear crystal blue to look up and see,

The eternal God of all ages is in love with Thee.

The sun shines, the big blue world beyond the skies,

Heavens home for God and in the kingdoms realms;

The limits of earth only limited to some who won't believe,

Trust in The lord and start to acknowledge and concieve His love.

The sunshines boldly and as brighly as can be,

Laughing at all the humans endless possibilities;

God has a plan to love and prosper you,

Not to give into the Devil's endless requests and needs.

The sun shines down bright as bright as can possibly be,

Lost in the dark ages of missed fortunes of endless time;

Be sure your sin will find you out in time and God will save you,

You can't win when your chips are down and you back spin.

Signed,

Obedience is Truth.

38 Skies and Light

Skies and light, what could possibly be,

Brighter days than you and I have seen;

Hiding in the shadows of dark days,

Different meanings and truth in sight.

Skies and light, through eternal ages and days,

Years pass by and new days come and go each way;

The trouble is we don't know exactly which what way,

Only that through skies and light, God wins at the end of the day.

Skies and light, changing and rearranging in all possible ways,

Hiding in hidden twisted corners of long gone words;

Blessings falling down upon you from heavens birds,

Songs of love and happiness, singing through God's eyes.

Skies and light of happiness, holding onto the truth you trust in,

The best in life is free when you look up and see within;

Pack up all your troubles and out your rubbish in the bin.

Skies and light, heavens, heavy, happiness so bright,

Crying tears of joy and pain in anquishes love delight;

Happiness beaming on your face through the light of day,

Skies are looking down on you throughout all your live long days.

Skies and light throughout your long lost lonely years of sight,

Look again a fresh and new, God has a new day and sky for you;

See it clearly, the love of God shining down in the light for you,

The light of the skies shining down, a mixed brand new day for you.

Signed,

The way it shold be.

39 Through The Air

Through the air comes a plane with Christ on it,

Returning from heaven for all to see clear as clear;

Bright as the day and as true as the wind,

He lands on the tarmac to take away all of the sin.

Through the air He breathes on us all afresh and new,

He lights the way and leads the way to go home again with you;

Taking us to be with Him in heaven the rapture of pentecost,

Grace and mercy flowing in a river of love, forgiveness to.

Through the air, the people of the kingdom, come to live with Him,

Forever and unending new possibilities of wondrous, fantastic wins;

Even the government and parliament ask to talk and speak with God,

Offering up a prayer for peace and perfect guidance to lead.

Through the air I must compare, what has go got for us today,

Life eternal happening in a loving brilliant and brand new way;

It is the loving happiness of peace and caring loving thoughts,

All the goodness of truth and righteousness in God's Olympic Sports.

Through the air and all the problems of the world are solved and forgotton,

In the humility of loving and the truth is constantly happening;

The best is yet to come in all the goodness of God's long lost days,

God has an endless future for all the wonders of truth to realize.

Signed,

40 Brand New Light

Brand new light, shed on us each new happening day,

All the different ways gone and come again,

Each with endless possibilities of what is yet to come,

To see the coming of His love in grace and truth from above.

Brand new light, each and every brand new day,

The sun burns constantly on each and every one of us who sin;

God looking down searching, smiling wondering what is on our mind,

Only for those who care or dare or who are or not heavenly inclined.

Brand new light, for wondrous and endless possibilities to come,

The glory of God shining through the smiling son who won, no sin, one sun,

Don't you hate to ask and query why God would worry me,

Doesn't the taste of glory go down in God's victory.

Brand you light again to begin and start, stars of night by sight,

Looking down and smiling again the knight saw the days and nights;

All the best and brilliant love gone in days long passed and past,

The truth of returning again that God will come back after lunch.

Brand new light and you still have to go on and back to work again,

All the pen pushing typing that is all just going to happen again;

You had breakfast and are going to go home in evening at the end of the day,

All your lived long holidays taking up for you to spend the rest of your pay.

Signed,

CHAPTER 5 LIKE LIFE

41 As It Is

As it is and always was,

Bright and brilliant;

Sun was light,

Memories loving life.

As it is and will be,

Flowing freely unto me;

Reality check, all Ok,

Sitting pretty, face the truth.

As it is and wants to be,

The way it was and has to be;

Right at the time of writing,

The light of life, lighting.

As it is, best of all,

Certain height, tall or small;

Middle distance, margin call,

Medium and measured unto Thy.

As it is, something new,

Best to sit in a private pew;

Hear and listen to what it is,

Who will want, need to fear.

As it is, the way it should,

Being right and always good;

Perfect truth, acknowledge God,

Dull, dark, ages, in bright light.

Signed,

Sure Thing.

42 Light To Me

Light to me, light to you,

Right to me, write to you;

Love of God, sanctified,

Bright to me, Bright to you.

Light to me, not too heavy.

Heavens light, bright and right;

Wait to you, weight to me,

Time of day, something to see.

Light to me, have your own way,

Right to me, something for you;

God of truth, best for you,

Right to me, love of God.

Light to me, small and true,

Sure of what someone knew;

Something now, something then,

Where and when, how and who.

Light to me, life to you,

Sun shining bright as can be;

Don't get burnt in all your fun,

Live your life in the son.

Light to me, thin and hard,

Eating less, more for yours;

Losing weight, fat is hard,

Wait for God to lead you home.

Light for me, seeing you true,

Good to see what God can do;

Jesus Christ, The one and only,

Do the work and spread the word.

Signed,

Door Opening.

43 Water Is Too

Water is too, for those of you,

You who drink too much alcohol,

Down the tube and gurgler,

Gargling gargoyles, gangreen spew.

Water is too, best for you, you know,

Flush the water and bad stuff to;

Use the water, love of God for you.

Water is too, too good for you,

Don't miss out on the business due;

The rain won't wait for me and you,

It fills the dam, when good and true.

Water is too, best that you can drink,

All that juice and soft drink to;

Sugar and sweetness, very nice,

Not good for you though, in a bad mess.

Water is too good for you, you know,

Loving life and eternal reigning repeats;

Nothing beats the water that you drink,

Also for washing, showering and cleaning to.

Water is too, from the love of God,

Life giving freshness and life for you;

Eternal life and loving, living drinking,

The water of life, living water.

Signed,

Sweet as.

44 Trees Grow

Trees grow tall and slow,

Bees flying and pollinating;

Regeneration and rejuvenation,

Forrests forever as trees grow.

Trees grow, green and brown,

Branches, stretching and flowing down;

Reaching to the sky, their humble due,

The blue above and always blessing you.

Trees grow, by still waters, or streams,

God blesses us with photosynthesis;

Leaves and trunks, roots beneath,

A canopy of time and space.

Trees grow, tundra and rainforest,

Ancient history in very old species;

A thousand years that some did live,

Old and grey and in the system.

Trees grow, the best to know,

Time and life in freinds of ours;

God the gift of eternal life,

The preaching of the ministry.

Trees grow, cut down for paper,

Printing books of pretty poetry;

What was written, come and see,

Jesus Christ the cross of life for Thee.

Signed,

Beautifully slow.

45 Breathing Air

Breathing air, good to live,

Beating heart, what to give;

Circulation, blood and oxygen,

Exhale and perspire oxidents.

Breathing air, love is good,

God on high, heavens place;

Living, looking, grace form space,

Faith and hope, live in love.

Breathing air, good to see,

The love of God good for me;

You need time to understand Thee,

A good book to read, words are free.

Breathing air, beat and eat,

Food for thought, what you ought;

Work for the house, home sweet home,

God is calling, now its time to go.

Breathing air, frsh to smell,

Don't spend your life, going to hell;

Choose the way to heaven on high,

Best for you in what to buy.

Breathing air, best believing,

Trees are giving oxygen;

Time on the cross, carbon dioxide,

Died to live, working perspiration.

Signed,

Been and back.

46 See To Sea

See to sea, sail away,

Sailing ships for us to see;

Here to there and back again,

Oceans are teaming life.

See to sea and around about,

Discovering truth of lands to be;

Continents and islands where,

Boats can sail around and land.

See to sea and cosmic dust,

Satelite pictures showing us;

Views of earth from shore to sure,

Global picture, rich the more.

See to sea and travelling North,

From the South returning home;

Don't forget your humble birth,

All around the world our earth.

See to sea and ocean liners,

Cruising loving, dinner, dining;

The best of life has a price,

The cost to love, hearts Titanic.

See to sea, a world of new,

Venturing out and sicoverying anew;

Fresh and old, near and far,

Travelling on sail and star.

Signed,

Start again.

47 Waves Blow

Waves blow from shore to shore,

Sure as eggs, the sun will shine,

Sea breeze and ocean spray,

Berries, juices, salt water and fresh.

Waves blow in the wind and tide,

Bread fruits, lamb and cattle see;

Sailing ships in wind are set to go,

Places, people, things to see and know.

Waves blow and I will find and follow,

Flowing in the breeze, places to go;

Christ the sun and water the wind,

Ice and poles, some of them sinned.

Waves blow, winding, wandering where,

Wondering, waterfalls, rise and fall;

Surf is up and ground the swell,

Sands of time, a long time well.

Waves blow, happening true,

Sun and sea, freinds for me;

To be the best, you must get the rest,

God is love, life the test.

Waves blow, near and far,

Around the world, the guiding star;

Sailing ships in right seas are,

Safe and secure and not by car.

Signed,

Blowing freely.

48 Windy Breeze

Windy breeze through the trees,

Surf and seas, not all that much ease;

Cycles of turning, breathing air,

Fresh and new, with pleasure please.

Windy breeze, a long lost treasure,

From out of the morning, awake anew;

Good to take a brand new breath,

Breathing freely, the joyful breeze.

Windy breeze, life on high air,

Altitudes change and trade with care;

Training always to be ready for death,

The birth of life is always afresh.

Windy breeze, God's joyful life,

Pleasant, purposeful, best for us;

Sailing anew under fresh new wind,

Moving quickly in heavens, heavy ocean.

Windy breeze, takes what it needs,

People want a lot and people greed;

Trust the strenght of God at sea,

The wide blue horizon, a windy breeze.

Windy breeze, wherever it blows,

Turning around and coming back it grows;

Breathe it in, this fresh new breath,

The flush of seasons, will lose the less.

Signed,

Discovering sins.

49 The People Are

The people are, lost in heaven,

Gone home to be with Thee on high;

Saved the day from hell and weigh,

Jesus said, I am the way, the truth, the life.

The people are lost of earth,

Different times, since Adam's birth;

Noah and Moses, were duely lost,

Jesus a saviour, to pay the cost.

The people are lost in time,

In different verse and different rhyme;

Parsifal a kinight on a quest,

To find out exactly, what is best.

The people are lost at home,

Not knowing what and where to Rome;

I kid I did and looked to God,

He would lead me from all the odd.

The people are lost and doomed in hell,

God the cross redeemed them then;

Could not find a place to hide,

In God draw close and in Him abide.

The people are all joyfully living,

The cost of love and bringing, giving;

Find a place with Thee to love,

The house and family from God above.

Signed,

In time of need.

50 A Poem In Time

A poem in time to come alive,

From dark ages and awful crime;

Words of truth in lines of rhyme,

To save the day from within my prime.

A poem in time, happening in rhyme,

Coming true and alive with you;

Working the way right down the page,

The beauty of the world, its age.

A poem in time, no more crime,

Stamp you feet on all the grime;

Graffiti and tattoos an artful lime,

Paintings feel free to fit the line.

A poem in time, the fame all new,

The family struggling through the famine,

God's mission to rescue all who need.

The hope for love and life to read and lead.

A poem in time, the love of rhyme,

A fresh taste of brand new words again;

The work of paying, which that is due,

The dutiful truth of all beyond blue.

A poem in time, the beautiful birth,

God the whole wide enormous earth;

A heart so big that none can well tell,

Saved in a minute, a million church bells.

Signed,

Always anew and fresh.

CHAPTER 6 HEAVEN MEANT

51 A Poem In Heaven

A poem in heaven, a new found friend,

Rhyming, writing just going right down;

No time to lose or to make amend,

Jesus saved it all in time to lend.

A poem in heaven, hell bent hard,

A nice new house with a big backyard;

Build it yourself or build it for me,

I will pay money for free for all to see.

Flowing and knowing the joys of prose;

Taking time out to sit and pause,

To think anew and a fresh the source.

The truth is justice for all who fail,

Established and maintained by God as sane.

A purpose for living and freedoms law,

God grants His children even still more.

The beauty of the ages, hells paradise;

Established the truth, another note;

The beauty of brilliance, a boat afloat,

Politicians watching who gets the vote.

Rhymning right, a light or fright,

The weight of freight, write as life;

The trouble with strife, a lack of wife,

The problem fixed with a kitchen knife.

Rhymning right, a knight who writes,

The day and night I have come to like;

A flight or fight, up to heavens stairs,

Staring right at the write compares.

Rhymning right, the light through the ages,

The dark days gone in the heat and despair;

The dead are buried and being raised to heaven,

What is gone and beaten is lost in deep hell.

Rhymning right, a message that is sown to tell,

The best of the rest of your life, fruit as food;

A poet writes what they like in any kind of mood,

Pearly gates, happening so beautiful and true,

St. Peter standing there, waiting for me and you;

Come to Jesus, be assured of your place in heaven,

No good looking down all the time and going to hell.

Pearly gates, I hear you calling my name to come home,

Confess your sins and get God to put your guilt in the bin;

Get your share of the good life, but wait for God,

He will save you from yourself at the time of day.

Pearly gates, why do you ask me what is everything I have done,

Leading me home to Yourself, you who made for us a way;

Jesus Christ the son of God, sent to the cross for sin to pay,

Pearly gates, why do you sit there or stand and ask?

Who paid for you, did you not know it was a free gift,

All you have to do is to repent and believe in God;

Your home in heaven is secured by your faith in Him,

Pearl gates, trying to lead me up the streets golden path.

The best of the best in day and nights clear skies.

Clear skies happening true for all to see and enjoy,

The life from the dark ages now clean and upfront;

Looking fresh and anew and all happening clean and true,

The beauty of clear skies congruent and lovely to see.

Clear skies a gem and a beautiful visual must to take in,

The new breath of breathing all the goodness away from sin;

Left high and right minded, stranded in your own thoughts of self,

Now you have time to read all those unread books on the shelf.

Clear skies a journey and path to heavens golden path,

The right to the kingdom of Jesus's heavenly eternal life;

A place of smooth sailing and a fresh taste of a breath of wind,

Different suns each one unique,

Stars in beaming moonlight, so it seems.

New life in the spirit, stars speak,

Like going up the river or a different creek.

Flickering and shining coming down,

Stars are marvellous and like a dream;

Moonlight crystals of golden cream,

Stars are lovely and perfect for you to see.

Like the movie or television stars on the screen,

All must be good and right, while coming clean;

Clear as spangled silver as they rightly mean,

Wondering what keeps them hanging there or how long they will be.

Stars are such a wonderful wonder of sunshining light,

How they got there in the first place or how long they have been;

Formed from gaseous substances out of cosmic dust,

Roaming out of space for you and me to observe and see.

Different planets, names of the above,

Mercury, Earth, Mars, Venus and ħ½ĩ ħ½ĩ ħ½ĩ ħ½ĩ ħ½ĩ ħ½ĩ,Â Jupiter;

Neptune, Uranus, Saturn, Pluto and Aries,

The planets of our universe and solar system.

Different planets, each of its own uniqueness,

Zodiac constellations within the limits;

Some outside our galaxy we have no knowledge of,

But they are there for sure, but unnamed, unloved.

The sun at the centre, the planets surrounding,

Orbiting the sun in their own time limit of years;

Praising, blessing, happening, God anew and away,

As days turn into nights of eternal light and night of day.

Anew and atmospheric, all united in cosmic truth and love,

The God of the universe guiding each around from above;

The grace and beauty of the universe, turning around as planets,

No life of any kind except earth with people, animals and plants.

Planets are as much a part of us as our minds and hearts,

Beautiful in creation and started right from the start;

An array of wonder, amazement and magnificance in stature and size,

Perfect in every way and true, as much as disguised from the sky.

Planets as plain and perfect, with no problem to us as yet,

Turning around and revolving in each one's own orbit's circle;

Not as if I worry about when when I lay me down in bed to sleep,

But think on such a grandeur of total astonishment, at such a wondrous set.

58 The King's Castle

The king's castle, a mansion of Godly proportion,

Of ghostly magnificance and pleasant to see;

A palace in each of the places down through ages of time,

Motes and heavens quarters for a king's compare.

The king's castle, his home for long time reign,

God's earthly home for His descendants to claim;

Rightly owned and possessed by those who claim,

To be God's people of heaven for the kings name.

The kings catsle a place of royal establishment true,

İ̇ 1/2İ̇ 1/2İ̇ 1/2İ̇ 1/2İ̇ 1/2İ̇ 1/2İ̇ 1/2İ̇,Â A place of monarchical birthright for people from Him;

Lovingly knowing that their security is safe in God,

The kings heredical achievement established in fame.

The kings castle a fortress of government concern,

Born in righteousness of God for His kingdoms heirs;

Who choose to compare prayers with churches and airs,

Cathedrals of grandeur alongside, full of heavenly dreams.

The kings castle His love an dpassion to serve his people,

Not a tyrant who will be killed or decieved by others;

Righteously established and held in the book of love,

Arthur or King David from in God's heaven up above.

The kings castle, his heart and minds permanent place,

Until he gets old and passes on to his eldest, then goes back to God;

Nothing in the dark ages left rotton, undone or odd,

But the truth in the light of God's heavenly righteous love.

59 God's Home

God's home is in heaven from all places left on earth,

People who had won the battle to go and share His love;

God's home is perfect in selection of righteous estate,

The tabernacle of people hearts and lives that are true.

God's home is a beauty, beyond all else on earth,

Heavens highest place, where nowhere else will do;

The righteous who are perfect, sharing forever His love,

His home is in heaven, is a place of love and righteousness.

God's home is the present and respect of His merciful love,

The presence of His spirit established in contrite righteous love;

Love is the key word, when you are talking about God,

His brilliance and His brightness is greater than all else.

God's home is surrounded by angels in a beautiful parade of worship,

His face lights the world on constant leadership and pleasure;

We surrendered to the surroundings of a better place than anything,

Serrving our loving God is His magnificent place of splendour.

God's home is like an island of dug up ancient treasure,

Exploring the universal love of His endless joy and measure;

One day going home to be with Him in his home forever,

Our joy so sweet that all God wants from us is His pleasure.

God's home is a perfect wonderful place to live in,

When you die to Jesus, you are given access to His heaven;

As writing goes on daily in the success of any kind of weather,

God's home is permanently in heaven despite the endless whether.

60 Way To There

The only way to get there is through Christs sacrifice,

The only way to heaven is through God's righteous son;

The perfect living atonement for all the weight of sin,

The devil gone and beaten and put into the bin.

The way from here to there is something I call sweet,

The victory and the triumph over all the evil deceit;

God handing you the key to heaven with a paid receipt,

Christ the living king of glory in God's kingdom of heaven.

The way to there is perfect if you follow Christ in all that is right,

The truth and the final deserved end from hells deceptive plight;

The certainty of victory once again in Christ's sweet perfect delight,

Reserved for those who love God, beyond all the earth's wrong might.

The way to there is lovely, the beauty of all the hidden truth,

Established in the radiance of what is righteous and proven right;

The bright right of Christain living ain all God's right of sight,

So that what ends up getting from here to there is only the way of light.

The way to there, which is to where God lives in righteous heaven,

Is to love Him clearly and dearly and follow Jesus Christ The Lord;

To love God more than anything and give Him all your salvations life,

Thankyou Jesus my Lord and saviour, I know I am always worth your love.

The best way to there, to set foot in the door of God's righteous heavenly home,

Is to achknowledge Him as your saviour and bow to His thrown above;

In perfect humble adoration of all His sovereign reign and worship him in love,

The governemnt and authority of heaven is written in Christ's blood.

Signed,

Perfect truth.

Bonus Poems

MOUNTAIN STREAMS

Down in the snowy mountains,

Running streams and rivers flow;

From snow capped peak mountains,

To the valleys and out to sea they go.

Where wild deer roam and mountain horse,

Where kangeroos and wombats live;

A place of grassy river sides,

Where horse and cattle take their stride.

Waterfalls and creeks, mountain gulfs and holes,

Walking tracks and backpack camps;

Bush tucker cooking, lamps at night,

The eagle and crow fly and squawk.

Down the mountain as the water runs,

To creeks and streams under the sun;

Mountain streams that team with life,

Where trouble melts and no problems strife.

To take a drink of water from the mountain stream,

Of fresh clean water as clean as the air;

Where the high of inhaling intake touches the sky,

Of a night time when the stars are shining bright.

Where the wild bush horses run as free as the wind,

When the ridges and valleys, meet mountain streams;

For sadly now this tale has come unto an end,

As the mountain streams are this mans new found friend.

WILD LIFE

Wild life plentiful, abundant and free,

Roaming the earth with you and me;

Spiders and snakes, crocodiles and sharks,

Dangerous and harmless struggling to survive.

Kangeroos and emus, wombats and koalas,

Bears and deer, mountain lion and moose;

Tigers and lions, panthers and cougars,

Elephants and rhinos, giraffes and hippos.

Gazelle and hiena, foxes and rabbits,

Seals and otters, walrus and djon;

The great whale, humpback and blue whale to,

Krill and prawn, plus lobsters as well.

Eagles and hawks, flying and diving,

Swooping upon their prey at times;

Raven and dove as free as their love,

Cockatoo and parrot, kiwi and echidna.

Flowers that grow on the side of a mountain,

Fish in the streams of salmon and trout;

Gods call on the wild, man is born,

Did man come along and ruin it all?

Where grace and mercy are not of the world,

The heart of the wild, a humble child;

Jesus Christ, son of God, son of man,

Born of a virgin, not to fear the wild life near.

The wildlife a thing to cherish and flourish,

Where the appetite of man is flavoured and nourished;

Heavens calling, animals kingdoms home,

The continents of which to and from, they roam.

Land of our fathers, tame the heart,

The wild life sacred and people being smart;

Remain so clever so as not to touch,

The amazing wildlife of nature as such.

Final Word

THE RIGHT LIGHT

Now that we have got things into some form of perspective for the right light of God's eternal love. The reign of constant heaven is more clearly visible and expected to be seen through the righteous words of God. His word of truth and love is more than a blessing and a discovery of truth, but an eternal righteousness of love completely surrendered to us in His heavenly kingdoms reign of love. As discovered from within the text, love is indeed the key and operative word, it takes precedence over joy and peace even though they are important, but the love of God is such a highly sort after and desired thing that cannot and never be matched with importance. If you know the love of God, you have solved the problem of how to get to His mighty and wondrous kingdom. His love is above everything else, it is the pinnacle and the high point of the righteousness of His wisdom and His grace and mercy, only demonstrated for once and for all in the giving of His son Jesus, in the atoning love of God for the redemption of our souls and the forgiveness of our sins. The Bright Right poems has tried to get to this love of God, it is the only way to truly know God, in all His magnificence and creation. Things in the right light and not dark and dismal in the depths of despair and hatred of each other. Firmly fixed and focused on what is right and what holds true with all the accepted and established understandings of the people of the worlds comprehension. I hope that you have seen this as a book of love, with its many diversified and divulgent aspects, words of certainty and love of truth and not hate and lack of hope. There is a brighter world for all and there is a hope and faith, that is found in the love of God. Hold onto the facts of life and don't let go of the love of God. Try to get it, find it and be affectionately attracted to to it, it is the greatest thing, beside God himself. God bless you all in your future endeavours and stay good and be kind.
