

Give it a chance, give God one more chance,  
A time and a chance to live in eternity;  
God came down and looked around for someone,  
To be his forever and go to heaven and live eternally.

There's no point in suffering without forgiveness and care,  
What we need is a touch love a love beyond compare;  
So as we rise to the place that he has in store,  
He'll teach us and guide us and totally restore.

Now I beseech you to believe in God and maintain,  
The hope and the faith that will even move a mountain;  
As I reach out my hand to him in the high heave,  
As he'll take me back to him in the here and now redeemed.

I look to the future and days all ahead to spend with you,  
Where the world and all of God's people are beautifully true;  
I want you now to care and to turn to God right above,  
Where eternity is calling through his power and his love.

Forget all the troubles and turmoil and pain here on earth,  
Because god has a plan to make and grant you his worth;  
For you were born to be children to live in his ways,  
That you might live out and seek his endless days.

For the majority are weak in the surmise of it all,  
But will brilliantly return and sun on the ball;  
For eternally realms of nature are always second best,  
So there's one more time for eternity and to heaven with there's.
