

There of a kind in need of relationship,
A few things a few people where is the leadership;
What is the matter with the world as it is,
Have we lost our minds while paradise is his.

First there was the beginning of the earth as it's known,
Then came man and woman from dust and a bone;
Now there is the spirit of new life and passion,
These three of a kind are the start of a new fashion.

Three wise men who were kings that brought gifts,
The shepherds and lambs came from leaving their shifts;
And the father and son and Holy Ghost,
Are reigning and leading and reading the most.

With leadership and organisation and communication,
We talk to our God in prayerful communion;
Who was the first and second and third yet to come,
Till all have been said and all the work is done.

Now we look to heaven as to where he shall come,
The sun shining brightly as the son trickles down;
And the sin in the meaning is only but how,
The truth is revealed in space and time till now.

So the three of a kind is the trinity and mind,
While the devil is lost and by the three are bind;
In words of the poet in rhyme and verse of line,
As the seasons and skies turn and give us all a sign.

Signed,

He shall return
