

Well this is the gift that reigns supreme,  
For like depends on time or so it does seem;  
So what will we do in our hours we're given,  
For the top or believe why that we're driven.

So much depends on being on time,  
Like going to work and writing this rhyme;  
For such is life when you least expect it,  
Time is for living and ensuring we keep fit.

Time comes by in many shapes and forms,  
Like lunch and tea are both social reforms;  
What if I allow time to rule my life,  
Will I be broke and not have a wife.

There must be a way to plan every day,  
By second by hour and earn all my pay;  
But using your time is all so important,  
When considering God's power and all what's destroyed.

I must now turn and look to the future,  
Of making my life live well in Gods nature;  
For time will come and time will go,  
So I'll travel around and find what's to know.

I love very much to have time on my side,  
Like making a wish for my perfect bride;  
How will I now finish this poem and this verse,  
I'll have to find time to die and reverse.
