

It's better to be humble and serve a need,  
And satisfy the aspirations of the right we read;  
So when we understand the difference between this,  
We can achieve the things where lead by his,

Like the love of the life of the shoulder of man,  
And the heart of the purpose and his plan;  
It's when we submit to God we do achieve,  
For its far better to follow and in him to believe.

It's a matter of choice to have faith in him,  
That it is better than material and earthly things;  
For god love us far and long before then world was born,  
That our choice would be his choice and people not torn.

I know that I can count on you r knowledge forever,  
And seek to understand the truth you endeavour;  
For it is in the giving that the loving turns to living,  
And mind to service rather than the purpose forgiving.

And also know that your heart will hold me true,  
In the sureness and pureness of our love for you;  
And in your heart you hold a place for me in heaven,  
That I might share your treasure and glory forever.

Because your reign in truth and majesty our lord,  
Your righteousness and certainty is our sure word;  
That you must come back master to judge all the earth,  
For what man has done and all that he is worth.

Signed,

Thank you for the love
