

PARSIFAL'S HUMAN LOVES

INTRODUCTION

Parsifal was the wise fool as we all should very well know by now and he wandered the world in search of the Holy Grail. This which, as his journey took him along the road of life, he came across, in his search for the ancient relic, many a woman who won his heart and mind, which along with the dreaded demon drink of disease and aimless mindedness got him into his schiziphrenic state of mind. The single solitary thing that he sought was shrouded and covered by his weak personality and many loves for women of which he had to learn to beat and defete. These weeknesses of love in the end, had turned out to be his downfall as for knowledge he gained and sought, beat him for a considerable period of time as he then had to climb out of his hole and back into society. These poems are some kind of illustration of what was going through his mind as his love got the better of him and as he would slowly and gradually turned back to God for what was really his rightful prize of the Castle's Kingship. The path he was walking was not and still is not unlike the book of Human Loves that Parsifal encountered. There is a great diversity of writing and love is the greatest subject in the world to write upon. So we will discover this thing of what is so called "Love" as you read and dwelve into the various mysteries of Parsifal and The Human Loves of life and his walk along the wandering path. You could be pleased to learn that he is not really alone in his walk, but as there are many who have gone astray and tried to walk on the same path themself and have found in written literature a means and away to get back on track and learn from their mistakes to find the path that reaches and leads back to God and the waters of eternal life, to attain or find and reach their own life giving rejuvenation and the God of love, where the family home was really the answer all the time. As in Parsifal's Human Loves, the right for courtship could start and lead to that perfect match of the long time sought and God reasoned partner. Please enjoy and may God bless and love you as you read and I love you as you learn what Parsifal's Human Love is all about.Â Dar el Robert McAllister.Â
