

State and federal parliament are designed to pass law,

On a day to day basis to uphold and change to make sure;

Now we really need a leader who can manage on their own,

Not tied down all day on a computer or handling complaints on the phone.

.

So now we hope both parties are present because it's not a party at all,

For so many things to think about and decide seriously the call,

For a while everyone is happy, but the work really needs to get done,

Instead of sleeping on the job and meaning making money for one.

.

Well it's not a joking matter all this bickering and disputes,

That we're all dressed up to kill in our beautiful new suits;

For both sides have got an argument for the right way to the end

And they yell and scream and shout and call each other a friend.

.

Now it's a scam and a shamuzzle to always lead this way,

And at the end of the big puzzle it's the same each and every day.

So I tell you that the leadership has to be organized to get anywhere at all,

For it's such a big circus in each corner of the world on the ball.

.

Well parliament lets have it, have I got the I's for the idea,

Or do all you're eyes need glasses to distinguish every beer;

The winner wants a wine and she's the wife of someone else,

If that's the spirit right there matey then you'd better sit back on the shelf.

.

Now mister speaker do you hear me or are you talking to someone else,

Do I really need interjection or do you want to join me as myself,

I hope it's all well written and the minutes properly taken,

For I'm going to run it my way and to me, the mint is making.

.

Signed,

Money for the Bill.
