

Human beings are the highest intelligence of any form of life,

With plenty of time for money and things to do with wife;

So now social interaction should be the psychology of the Church,

As we seek and look for answers of where the truth is in the search.

.

Well at God our father's pleasure we serve the humanity of men,

To read and write the treasure at the point of every pen;

And the kindness of human beings is the value to be found,

As we never want to lose one to lie beneath the ground.

.

So Lord of every nation is the circle of time going around,

And the people prove their patients to be human beings in at sound;

For the goodness of the grace to eat is for rich food to grow from underground,

That for eating we need heaven to pray before gaining a pound.

.

Now the language is no barrier for human beings to perfect,

But must learn to love each other and the beauty to reflect;

For the knowledge of the holy is law unto themselves,

That the books of God their reading are leading to the shelves.

.

So are you a special person being called a human being,

Or are you agreeing to a season with a reason for the seeing;

The ability to talk is the management of communication,

That is priveledged to human beings in organized conversation.

.

So if we are that smart and clever enough to know where human beings,

What is all the fuss and arguments about our sins disagreeing;

For when and if, in the priority of life, it is to be a human being,

Then you like I must consciously be simply contemplating teeing.

.

Signed,

At one with God.
