

The strength is in the structure of progress with people,

As in the sentence the line tries to build a strong building;

And the people with hammer and nails, need paper, pen and timber,

Like the blocks of the foundation were laid with the bricks by the bricklayer.

.

Then there were things built that must stand the test of time and be strong,

With the strength of people and steel with concrete to stand long;

Like with the poet it is the strength of the mind to write,

That the builder can read what he wrote of a night.

.

As the buildings have strength of their own like God,

Whose measurements are perfect and all not differently odd.

So the angle and perspective and the strength of things to stand,

Must be for the people by the people who love it so grand.

.

As the pen on the page will feed meat for you and me to eat,

And it depends on the people who have strength to read and meet;

For the if I was of the person who is like the eye of the storm,

Then you are that possibility with our both eyes strong and warm.

.

So the strength of the character is now what is developing right,

As things that you read and what we need is what I try to write;

For God grants us blessing out of the strength of his might,

That He rewards all ourselves of and for the things we do right.

.

For me it is the patience and the strength to write and to wait,

That you who will find me and have found me a love not to hate;

When the discipline comes to be realized as it is the best way,

Then the strength of the strong is the amount of us all to end each day.

.

Signed,

Struggling Gradually.
