

Well what is this disease, a bit more than a sneeze?

Don't tell me I've got it if you don't mind please;

You see it makes you think things that aren't really real,

It stops you from acting on how you should feel.

.

Schizophrenia disconnects your thought from what's on your heart,

It effects those who are clever, dumb or smart;

To me it's an illness that makes you go mad,

And even though you take medication it still is quite sad.

.

It plays hell with your mind and that is a fact,

Because it makes you want money and what it will attract;

Now use that brain God put in your head,

And don't let it beat you because its not worth being dead.

.

There's treatment by doctors that think they know best,

But that's just a rumour that they try and put to the test;

It makes you quite a rebel but that's not what's wrong,

The problem is that you get it from a place named Hong Kong.

.

Signed,

So sick of it.
