

Dear Lord Jesus lamb of God I want to love you so,

As I arise from bed each morning with another day yet to know;

I look around about me for wherever you might be,

And really your right in front of me if only I'll look to see.

.

It's not as if I'm perfect because I know I always go astray,

But it's knowing that your love is there to lead and guide my way;

Maybe I am not as good as should be or probably ever would,

Though through your spirits presence you would let me think I could.

.

I don't know what I'd ever do if I was here on earth alone,

For it's not as if I'm stranded here without you on the throne;

But sometimes still I doubt because I can't see everywhere,

Though I know that I must believe because in my heart your there.

.

Your were really God yet human and that is what I love,

And it's the love you have for living that will leads us on above;

It seems that there is no purpose to all my wants and deeds,

As you turn your love to kindness for other hopes and needs.

.

Now it's really kind of magic in what your all about,

And you make me want to thankyou and give a mighty shout;

Well your victory nears completion in this world of constant pain,

As your love lives on with truth and grace creating us new life again.

.

So here I end my poetry with a prayer for an eternal thought,

That God would have the victory with me doing what I ought;

Your humility has conquered and your love has won the day,

As your face in perfect unity still shows us along the road and way.

.
