

The power of persistence is now our first choice,

Of what can be done and what we can voice;

It means life is a challenge and things are all new,

Venturing and advancing to what will come true.

.

The power of persistence, just how will it evolve,

Forging ahead as the day does turn and revolve;

It means thinking things out, just how they might be,

Moving along nicely while still staying free.

.

The power of persistence will see us well fed,

With courage and confidence alive in our head;

It means perseverance and just getting it all right,

Not giving up, but working out and seeing the light.

.

The power of persistence well we all get the idea,

Of what will keep going without any fear;

It means sometimes looking up and always looking out,

Staying positive and patient with things that we doubt.

.

The power of persistence must come from the heart,

Which is not dumb or stupid but clever and smart;

It means suffering for perfection to get it all right,

Or it's about living and trying to keep up the fight.

.

Well the power of persistence is now in a rhyme,

Of how you can overcome and beat all the crime;

It means knowledge and wisdom and life after death,

To continue in eternity and relive every breath.

.

Signed,

Never give up.
