

Let me be me no matter what happens,

We will all be better off and leave me quite happy;

If you want to be you, well you must be you too,

But let me be me and I'll let you be you.

.

It doesn't matter what kind of mind you've got,

But depends on elimination and truth but that's up to God;

In the end we all must be what we we're all meant to be,

Because you are not me and I have to be me,

.

We have all got to be ourselves at the end of the day,

And that may cause trouble or some difficulty to pay;

But still I stand corrected and must be impressed with all us,

So I can be me to separate and segregate all of the fuss.

.

Now I'm not going to give up until my pen is put down,

But must remain on top of every situation in town;

It's best not to be disturbed but to take a good look at it all,

As the world goes around on this big earth's spinning ball.

.

Let me be me, no matter or whatever be the cost,

It's far better to be me than to find out you're just lost;

There are answers each day to the questions that are asked,

To get all of those jobs done and complete all those tasks.

.

Now I know you are just hoping that you can be me,

And I am not very happy at allowing you that just to be;

For when it's all said and done things must be accomplished,

Because I know I am not you and I want that distinguished.

.

Signed,

I've got to be me.
